

Warsaw, 9.06.2022

We are very pleased that once again we can cooperate with Valsir, which this year became a partner of the start of the final stage of the 79th Tour de Pologne UCI World Tour. The Tour de Pologne race is also a promotion of a healthy lifestyle, cycling, and bike is the most ecological means of transport. This makes it all the more pleasing that Valsir is committed to sustainable development and to optimising energy and resources.

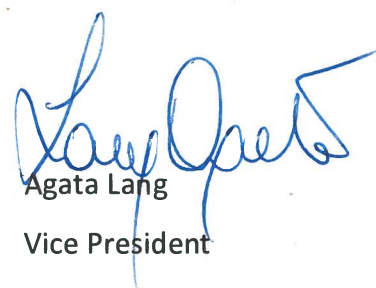

It is very important for us to share similar values with our partners and sponsors. In Valsir's case, these are undoubtedly the passion, support and teamwork those are also important in the cycling peloton.

A special thanks to Mr. Andrea Niboli, owner of the company for having believed in Tour de Pologne and to his collaborators who follow this project with great commitment and devotion.

The 79th Tour de Pologne will be full of great sporting emotions, beautiful landscapes, and above all, it will once again attract millions of fans who have been waiting for our race all year. We are very happy that Valsir is involved in this and strongly supports us.
